1994

Hello World

Born in a
Small Town in India

2014

Started BTech in IT at WBUT

2015

Frist Internship at IIT Kanpur

Worked on Tessellation, 3D High Dimensional Design Thinking

2016

Summer Internship at IIT Madras

Used OpenGL 4 to implement Cloth Simulation. Worked on Rigid-body and cloth collision using Bullet Physics

2017

BTech Thesis at IIT Kharagpur
+ Visiting Studentship at IIT Kanpur

IITKGP: Worked on Image Processing in Matlab then Used Masked RCNN, Tensorflow for Computer Vision
IITK: Inpainting in Matlab

2018

BTech Thesis Defence
+ UIUC Internship

IITKGP: Successfully defended BTech Thesis on Counterfeit IC Detection
UIUC Remote: Used Python, Pytorch, Dynet, XNMT for Infant Vocal Emotion Detection using Pyramidal LSTM

2019

IIT Kharagpur Remote Internship
+ Lyon1 Remote Internship
+ IIT Kanpur Research Assistantship
+ NSHM Visitng Lecturer

IITKGP: Used Matlab for Music Listentioner's Emotional Reaction Analysis
Lyon1: Literature Review and Report on Symmetry
IITK: Matlab, Pytorch, Python for Musical Script Creation from Harmonium Playing Music Video using Hand Detection, Perspective Transformation
NSHM Lectureship: Taught 3D Computer Graphics using OpenGL, C++

2020

IIT Kharagpur Research Engineer
+ Started KTH MSc MediaTeknik

IITKGP: DeepFakeFace Video Detection using Python, Pytorch based on Interframe Difference for Wrinkle Movement Detection
KTH TA: Visualization
KTH RA: PyQT+Python for UI Implementation for cancer cell detection

2021

Ericsson Summer Intern
+ EPFL Exchange

Ericsson: Haptic Teleoperation using ROS, Python, Figma
EPFL: Digital Humanties, Design Research, Computer Vision, ML-VR

2022

RA at EPFL
RA at UNIL

EPFL: VRLE UXR
UNIL RA: Participatory Design Workshop+ Interviewing for Design Research

2023

Self Care and Introspection
